

# Riddle bucket SB

**For all excavators in the 1.5-33 tonne weight classes**

The Engcon series of riddle buckets is designed for quick, simple sorting. The riddle buckets require no hydraulics; they are built from the highest quality steel where the cutters and steel ribs have a hardness of 500 Brinell – the same high quality that can be found on every Engcon bucket. All for maximum efficiency and a long service life.
