

Rotating brush

Rotating brushes for excavators

Engcon's rotating brushes – Make the most of what the excavator has to offer and open up previously undreamed-of possibilities in a wide range of speciality areas. Regardless of whether you're sweeping soil, sand, gravel or snow, the brush will very quickly become a favourite tool you just won't be able to live without. Areas such as road crossings, pedestrian walkways, tramway points, etc can be cleared as well as sweeping road sand and gravel, brushing grassed areas, foundations, rocks and more. The only limit is your imagination.

A hydraulic motor provides the power and a chain drive which enables the brush rotation speed to be adjusted. The open design allows unsurpassed, service-friendly access, and the standard polypropylene brushes can be replaced quickly and easily. Compatible with EC-Oil, allowing automatic connection without the operator having to leave the cab.

NEW! The EC-Oil automatic quick hitch system is a free standard on all engcon's hydraulic tools with S45–S80 attachment

Specifications

Model	SR800	SR1300	SR1600	SR1800	SR2000
Min hydraulic flow: (l/min)	20	20	20	20	20
Max hydraulic flow: (l/min)	60	60	60	60	60
Weight excluding attachment point: (kg)	210	240	260	275	290
Width A: (mm)	800	1,300	1,600	1,800	2,000
Height B: (mm)	1,257	1,257	1,257	1,257	1,257
Length C: (mm)	1,060	1,060	1,060	1,060	1,060
